and great fragments of cloud would break off and go floating freely down the slope which I had just ascended. Long filmy streams above were stretching themselves forward as though impatient at the slowness of the great cloudy glacier beneath them. Large drops of rain began to patter. The foregoing, outlying bits of mist were creeping on the earth around me, and some, as graceful as a giant boa, were arching their long crests upward above the castle rocks beyond me. Then the great billow of boiling black swept around me and beneath me, like some living thing of strength and purposes and, thunder deafened, lightning-blinded, mist confused, my breath thickened with an air that was vapory, ozoned, a sulphurous, I stood there, awed, silenced, fascinated.

Soon I noticed that my hands kept vibrating at my face to free it from a cobweb-like sensation, and that my flesh was warm with a little prickling light, and, looking up, I saw my gun barrel tips sparkling with little flashes of light. Then I had realized my danger, and turning I ran quickly down the mountain side whence I had come, and left behind me the grandest spectacle I ever witnessed. On our slope it only sprinkled. When I reached my home canon, the wind had not ceased to shine there, but southward they had heard the stormy mutter. Two days later I went down to the South Fork to fish, and found its waters had been high, and were still too turbid from the great rain cloud that had rolled down its canon by my feet.

JAMES NEWTON BASKETT.

Mr. John Douglass, of near Benton City, married Miss Frank Jordan instead of Mrs. Jordan, as announced last week. The attendants were Miss Boone and Mr. Moore, and Miss Edna Allen of Reedville, and Mr. J. F. Johnson of Audrain. They were married in the Christian Church of Reedville, Callaway county, by Rev. Robt. Shelton, of Audrain. The bride wore a beautiful wine colored satin, trimmed in iridescent pascamentry. The groom wore conventional black. The happy couple will reside on the groom's fine farm near Benton as soon as a residence can be erected.

Buy Tennent Stribling Shoe Co's "Never Rip" school shoes. They will wear better, fit better and look better than any custom shoe made. Turner, Jackson & Co. keep and guarantee them. 23-6t

**Fire at Fulton.**  
A big fire at Fulton broke out Tuesday at a little past 1 o'clock a. m. The large implement house of Tucker & Berghauer valued at \$5,000, and all its contents went up in smoke. J. A. Franklin's saddlery as well as other buildings were burned up, to the value of \$12,000. We learn there was little or no insurance on any of the property burned.

McLoney & Frank carry the best line of boots and shoes in Audrain county.

J. T. Scroggins, of near Farber, was in Mexico this week en route to Clinton where he will place his daughter, Miss Eva, and Miss Delia Williams in Baird College. Miss Eva graduates this year in vocal and instrumental music.

New and stylish line of hats just arrived at McLoney & Frank's.

**AUDRAIN COUNTY.**  
An Interesting Letter Which Speaks the Truth About our Farming Lands.  
Correspondence of the Nevada Statesman.  
LADDONIA, Mo., Sept. 15.—Having promised a number of friends to give a brief account of my trip to this part of our great State, I improve the opportunity now afforded by an hour of leisure to fulfill the promise.

We arrived in this pretty little city, over the Alton, yesterday morning, and stepped upon the same old platform from which 17 years ago we boarded our first railroad train, on a dark cold night in December. Scenes about here have undergone a marked change since that time, and the small hamlet of yore is a thriving little city to-day, and the barren prairie wilds of then are now the sites of pleasant homes and substantial business houses.

The failure of the Washab to connect with the Alton train at Mexico compelled us to lay over at that place several hours. We at once sought out our old time friend, Willard Potts, who entertained us quite royally during our detention. While there we enjoyed a most delightful drive about the city behind his fast stepper, visiting the Hardin college, Fleet military school, Salamanther works and other points of interest. Mexico is a progressive town, beautifully situated, with a large territory inexhaustible in resources tributary.

We had about forgotten to say that on the way from Nevada to Sedalia we formed the acquaintance of Prof. D. C. McCue, of Fulton, in charge of a number of mutes for the State institution at that place. They were children of all ages and both sexes and were gathered up at different points in Jasper, Barton, Vernon, Bates, Henry and Pettis counties. Prof. McCue informed us that more than thirty of the unfortunate were in his care, while he had sent a number of others over his road in charge of other persons. He stated that the school this winter would be well attended.

A little girl six years old traveling unaccompanied attracted considerable notice on the C. & A. train yesterday morning. A card attached to her statu that she came from Luberal, Kansas, and was bound for Vandalia, Ill. Her mother was dead and she was on her way to her grandmother at that place.

The country up here is a sightly one indeed. A prettier country one could hardly wish to see. The people are enterprising and prosperous, and are fast making a great country of it. The little city of Vandalia, twenty miles east of here, a pushing little place, is rapidly growing. During our short stay there this morning we had the pleasure of visiting several of its attractions, principal of which were its two pretty parks and its coal mines. There are no flies on Vandalia, and the dead men there are only those properly laid away inside its cemetery.

**WORCESTER NEWS.**  
Correspondence of the Ledger.  
WORCESTER, Sept. 23.—John L. Carnes, after battling so long for life, is up and about. He called to see us and was looking very well.

Mr. W. P. Atkins gave the young people a dance at his place last Wednesday night. Fifty youngsters enjoyed themselves until the wee hours of the night.

J. H. Hardisty to-day brought suit vs. Geo. Miller, for \$765 for work, before L. P. Crigler, Justice of the Peace. Friday, the 26th, is the day set for trial.

Our public school, under the management of Miss Mamie Carter, is progressing finely.

Mrs. H. W. Cox, who has been visiting in Henry county, returned home last week.

Mr. J. H. Carter's writing school has closed. The prize for the greatest improvement was finally given to William Coleman.

The Methodists and Presbyterians are holding a joint protracted meeting at Wesley Chapel, and the Holiness Band has moved to Rush Hill, where they think the work of the Lord is needed. They had one jointer at Wesley Chapel.

Mr. Powell Morris, who has been very sick, is convalescent, under the treatment of Dr. E. J. Cornett, of Worcester.

Mr. J. W. Crigler and wife passed through Worcester on their way to Paris to visit relatives.

Strother Underwood is happy now. He was telling us of the dandy corn cutting machine that says 175 schooks per day. He says "That in ten years men can do their farm work in a week or ten days, when the long drudgeries of toil will be no more." This will be a great relief to our friend Strother, as he is a laboring man of the first water.

Lebb Crigler drives the best three year old in this section of the county. If you want to buy him go around and plank down \$200. He is a natural saddle and harness horse.

Mr. Paige is trafficking with Mr. Graham of Middletown. Mr. Paige owns 200 acres of Audrain land and Mr. Graham business and residence property in Pike. The trade is not yet consummated. We hope Mr. Paige will stay with us.

Mr. Tommie Wright, of Mexico, passed through Worcester last Saturday.

Mr. Galloway and brother, of Ohio, are visiting the family of Mr. Thos. Dugden.

The finishing game between the Worcester and Santa Fe base ball teams was played at Mexico park last Saturday, resulting in the defeat of the forever "Past Times," and that, too, after Worcester played the most rotten game for four innings on record. "Past Times" is the right name for them. They can't play good enough to belong to the present times.

Mrs. W. T. Newman, who has been visiting in Illinois for six weeks, has returned to her almost panic-stricken husband. We are glad, on account of our friend Walter, that she has returned.

The sick list is on the increase. Little Clarence Atkinson, Little Dee Atkins and Mr. Morris are quite sick. Dr. Cornett is meeting with unparalleled success.

TOWN TALK.

Always bear in mind that McLoney & Frank can offer to sell goods for less than any other house in Mexico. Call and see it they will.

Richard Clemmens and his wife had quite a wartime last night at their home on Clark avenue. It seems Richard went home in a boisterous state of intoxication and began to malign and mistreat his good wife in a most pitiable way, when she, furious with rage and indignation, pounced upon him and flogged him unmercifully, striking him over the head with a stick of wood and bruising him up generally.

St. Louis boots and shoes to the front. The workmen making them at Missouri, best, eggs, butter, etc. Ask for Tennent Stribling Shoe Co's shoes. For sale and warranted by Turner, Jackson & Company. 23-6t

The Great St. Louis Exposition of 1890, With Gilmore's full band and the greatest electrical display ever made on earth, will be open until October 18th. The Washab offers the u-nal low rates to and from St. Louis. Particulars of the nearest tickets agent.

If you trade where you can buy the best goods for the least money you will trade with McLoney & Frank. 4td 2w.

**ARE THEY HIGHWAYMEN?**  
Two Country Boys Arrested For Robbing Iiams—One of Them Said to Have Confessed.  
As stated in Saturday's LEDGER Isaac Iiams, of Worcester, Mo., was held up and robbed by highwaymen on Friday night. Marcus Page and Ira Fanning, two young men who live in the neighborhood, were arrested and brought to Mexico Sunday and bound over in a sum of \$500 each, to appear before the next grand jury. Young Page's father went on the bonds. The young men are about 19 years old and have borne good reputations. Mr. Iiams was robbed of \$40— all the money he had with him. Rumor says young Page has confessed and returned the money. This report, however, is denied. The highwaymen, whoever they were, acted like green hands and did so much talking that Iiams at the time thought it a joke, and says he is sure Page and Fanning are the right parties. They had their faces blacked and wore handkerchiefs, with eye-holes in them, over their faces and talked all the time they were holding the "old man" up. As he came out of a blind road into the Rush Hill Worcester road, the robbers, who must have known he was coming, pulled their pistols on him and told him to hold up his hands and give up his "duet." Thinking it a joke he argued sometime, but finally found out they were in earnest and shelled out. He went straight to Page's father, who lived near by, and told him he was sure his son had robbed him. It is reported that the party who planned the robbery was not with the parties who did the work, but will be arrested at once. It is hard to think that two neighborhood boys with good reputations should do such a desperate deed, and we trust they may be able to prove their innocence. Mr. Iiams thinks, beyond a doubt, that the right parties are arrested.

**A NEW LODGE.**  
The A. O. U. W. to have a lodge at Hiner's school House.

The following members of the A. O. U. W. of Mexico, went to Hiner's school house last night in answer to an invitation from prominent citizens there who want to organize a lodge. J. J. Wincott, B. B. Runkle, J. A. Spence, J. R. Luckie, E. S. Frost, R. M. Allison, A. G. Gass, W. H. Lee, J. G. Trimble, R. M. White, J. T. Buntun, A. J. Wincott, W. C. Wallace, James Quisenberry and Tom Roberts.

Interesting talks were made by J. G. Trimble, W. H. Lee, J. J. Wincott and E. S. Frost.

We trust those who take an interest in such an order will organize at once. There is plenty of good timber there to make a fine working lodge. Hiner's school house is located in the garden spot of Audrain, which is peopled by our most substantial and prosperous farmers. It is just the place for an order like the A. O. U. W. to become strong and grow from the start.

**NOT KIDNAPED.**  
Just Gone Visiting—The Lost Children Found in Bed at a Neighbor's About Midnight.  
There was great excitement in Mexico last night on account of two little girls being lost. Edith Galloway, aged 6, and Jessie Elliott, aged 5 years, were found to be missing at supper time, and were not found until midnight, when they were discovered to be staying all night with Charley McGee's children on west Monroe street. The parents of the little folks were truly distressed and Mrs. Elliott was frantic with grief. At least five hundred people were engaged in the search and the fire bell was rung for hours. The ringing of the bell was the means of discovery as Charley McGee came down town at midnight "to see where the fire was." When informed of the trouble he said the children came to his house and took supper, saying their mothers had told them they could stay all night. As they were playmates of his children he thought it was all right.

The parents of the children desire to thank the public for assisting so promptly in the search.

"One of the Best."  
From the Sedalia Bazar.  
The Mexico LEDGER has just celebrated its fourteenth anniversary under its present management and the fact is noted by R. M. White, its editor and proprietor, with pride. Mr. White has a right to be proud. He took the LEDGER when it was in the sere and yellow leaf of decay and he has by indomitable pluck, energy and ability made it one of the best weekly papers in the state. Here's to you, Bob, and may you live to celebrate the fiftieth anniversary of your excellent sheet.

**Blind Silver Bill.**  
From the St. Louis Republic.  
The Blind silver law required the coinage of not less than \$2,000,000 worth of silver bullion per month, and not more than \$4,000,000 worth. That law is repealed by the new silver bill, except that the coinage of silver dollars is to continue under the old law for one year from the passage of the present law, after which no more silver dollars need be coined. So the boasted silver law enacted by the Republican party at the present session really demonizes silver.
